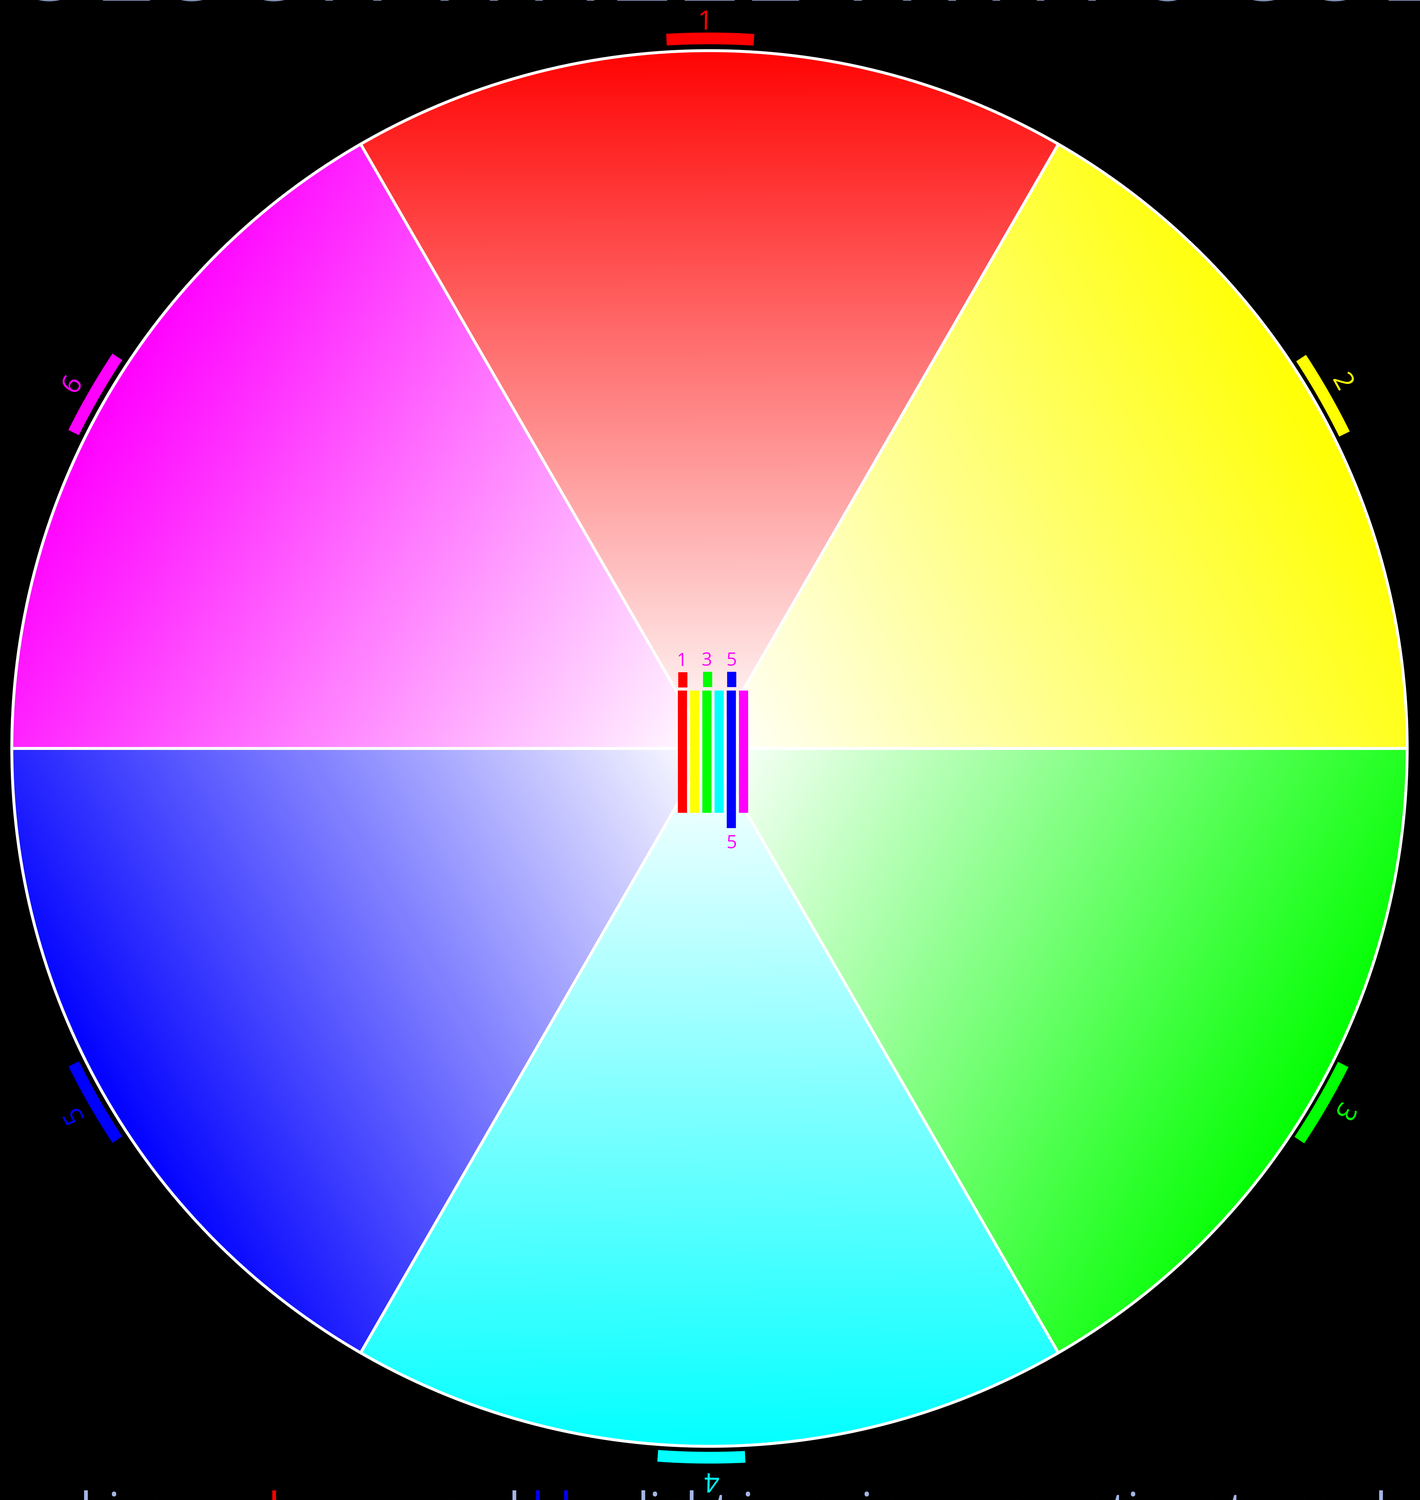
RGB COLOUR WHEEL WITH 6 COLOURS

1	255, 0, 0
2	255, 255, 0
3	0, 255, 0
4	0, 255, 255
5	0, 0, 255
6	255, 0, 255



The RGB colour model combines red, green and blue light in various proportions to produce intermediate colours. Numbers from 0 to 255 determine levels of brightness of each colour producing a triplet of comma-separated values.
